Mgr. Jan Šedo

Personal Information

Sázavská 4, 591 01 Žďár nad Sázavou, Czech Republic
+420 777 129 639, jan.sedo@gmail.com

www.jansedo.cz, www.linkedin.com/in/jansedo

Born 1st Oct 1986 in Jihlava

GOAL

Help others through new technologies and approaches.

EDUCATION

Masaryk University, Faculty of Informatics, Brno

2009 – 2012 Master in Service Science, Management and Engineering
2006 – 2009 Bachelor in Applied Informatics

WORK EXPERIENCE

Project and product manager | Self Employed

From August 2012 – now I'm focusing on project and product management of development web based application. I closely work with Proof & Reason. I'm also trying to find a way how to support education of children.

Project manager | Submissions-Anzeiger Verlag GmbH

2011 – 2012 internship I was working on brand new online service for customers of this publishing company www.baufinder.de. I managed the whole project from the initial idea to launch.

Product manager | Czech Bishops' Conference

2007 – 2011 employee, 2002 – 2007 volunteer As a volunteer, I programmed a web-magazine www.signaly.cz. In 2007, it became a social network for young Christians in the Czech Republic and I became responsible for the whole project. I currently manage 5 other employees and tens of volunteers.

Programmer & SEO consultant | RobertNemec.com

2006 – 2007 employee, 2004 – 2006 extern I was helping our customers to optimize their sites to search engines and I worked on developing web CMS to support that. I worked for T-Mobile, UK MBA, CzechInvest, ECM etc. I achieved the growth of unique visitors at Doktorka.cz from 80,000 to 220,000 per month only by switching to our CMS.

Other work experience

I did a lot of voluntary work. Mainly for schools (e. g. teaching) and church organizations (e. g. weekly meetings for kids, webhosting for parishes, courses). Full list of my work experience is available at my website.

☐ Programming web based application (PHP, JavaScript, MySQL)

HOBBIES

new technologies (nowadays: mobile platform, web-apps, social networks), music (guitar and piano playing, listening), reading, traveling and sports (bicycle, cross-country skiing, hiking)

RECOMMENDATIONS

Florian Lauenstein | Owner of Submisions-Anzeiger Verlag GmbH

Jan has quickly understood our business mission and oriented himself in the new market. He was able to immediately start managing the whole project and represented the key player for its success. I highly appreciated his work. Thanks to his motivation, management and IT skills and his previous experience, he was able to choose suitable contractors and verify the quality of their work. Jan has demonstrated excellent knowledge not only of IT technologies, but also of management, marketing and service design tasks. I also appreciated his improvement in German which allowed him to work more effectively in the target market which is not entirely English-friendly.

Mons. ThDr. RNDr. Ladislav Hučko CSc. |
Bishop at Czech Bishops' Conference

Jan is one of those excellent people who don't only come up with innovative ideas but who can also execute them. I had had a great experience with him as a volunteer already before he became Czech Bishops' Conference employee. Despite the low salary and his study requirements, he never ceased to concentrate on helping others. Thanks to his hard work, signaly.cz has become the largest Christian online network in the Czech Republic. I am glad he helped us open new, modern channels of communication.

Mgr. Robert Němec | Owner of RobertNemec.com

Jan has brilliant brain with focus at programming. He completed his first CMS for us when he was still at the high school and it has worked at many of our websites since then.

Furthermore, his working moral is at a very high level.
